Let's Start!

Pronunciation Spot: It's time to share some ideas!

Learning Outcome

Identify and describe jobs and careers in both work and social contexts appropriate for the interlocutor.

Ask your partner:

- What do you think the difference between soft skills and hard skills is?
- What are some types of formal training?

Can Do Statements

- I can talk about jobs and career plans.
- I can use the proper intonation for finished and unfinished ideas.
- I can talk about professional or academic information.

Let's Explore!

Is Kristi going to be a **webmaster***?

* A "webmaster" is someone who is in charge of a website.

Instructions: Read the text aloud.

- Kristi:** I have another question to ask you ... but it may sound silly.
- Bianca:** There are no silly questions.
- Kristi:** When I'm including my skills on my master résumé ... how do I know if it's a hard skill ... or a soft skill? I always get them confused.
- Bianca:** Hard skills are concrete, and easily measured. They consist of factual knowledge, things you learned at school ... or during other formal training. These include skills specific to a particular occupation ... such as those involved in planning and collecting data ... for urban planners, ... or the ability to use specific programs ... for a graphic designer.
- Kristi:** So me being able to use inPrint is a hard skill then?
- Bianca:** Correct. Proficiency with inPrint could be considered a hard skill for a UX/UI designer, marketing coordinator or even an editorial assistant. Soft skills, on the other hand, are somewhat less tangible and can be acquired in various areas of your life, from school, work, volunteering and extracurricular activities.
- Kristi:** So a skill I used while interning as a copy editor ... that I could use if I became a webmaster?
- Bianca:** Yes, because soft skills include interpersonal and communication skills, organization, problem solving, leadership, creativity, initiative, professionalism etc. ... These skills are often deemed transferable skills ... because you can transfer them from one job to another and all employers, regardless ... of industry or field, look for a range of soft skills in potential employees.
- Kristi:** So you're saying soft skills are less technical and more social ... like they have to do with how you communicate and interact with people?
- Bianca:** Exactly!
- Kristi:** Thanks for clarifying the difference between the two. It helps a lot!
- Bianca:** Anytime, Kristi.

Let's Practice!

Bianca mentions some important skills.

Instructions: Choose the words from the word bank to correctly complete the sentences.

Word Bank

general / tangible / guessed / messy / transferable skills / Soft skills / factual / knowledge / specific / Hard skills / easily measured / messy

_____ are concrete, and _____. They consist of _____, things you learned at school or during other formal training.

These include skills _____ to a particular occupation. _____ are somewhat less _____ and can be acquired in various areas of your life: from school, work, volunteering and extracurricular activities.

They include interpersonal and communication skills, organization, problem solving, leadership, creativity, initiative, professionalism, etc.

These skills are often deemed _____ because you can transfer them from one job to another and all employers, regardless of industry or field, look for a range of soft skills in potential employees.

Let's Practice!

Do you have another question ... or not?

Instructions: Read the sentences and practice their pronunciation. Check your pronunciation with your instructor.

1. I have another question to ask you but it might sound silly.
2. How do I know if it is a hard skill or a soft skill?
3. This include skills specific to a particular occupation such as planning, collecting data or the ability to use specific programs.
4. These skills are called transfereable skills.
5. So you are saying soft skills are less technical are more social, like they have to do with the way you interact with people?

Extension Activity

Tell your partner about your career ideas.

Instructions: Complete the following steps. Fill in the Self-Assessment.

- Find a partner. Talk to him/her about what kind of job you want.
- Use proper intonation when talking to him/her. Remember to use falling intonation when you are finished an idea and a partial falling intonation when you aren't finished an idea.
- Talk about different jobs. Ask your partner questions about what he/she wants to do.
- Talk about the soft and hard skills needed for these jobs.

Self-Assessment

Yes No

I identify and express soft and hard skills required for a job.

☐ ☐

I use the correct intonation when speaking.

☐ ☐

I talk about my job and career plans and listen to my partner's plans.

☐ ☐

Target Words

- **urban planner** (noun): someone who develops plans to create communities, accommodate growth, or revitalize physical facilities in cities
Example: Urban planners plan and collect data.
- **graphic designer** (noun): someone who combines pictures, words, and art in the production of books, magazines etc.
e.g. Graphic designers need to be able to use specific programs.
- **UX/UI designer** (noun): someone who designs a program so that it makes sense to the target user group
e.g. Using that program would be considered a hard skill for a UX/UI designer.
- **marketing coordinator** (noun): someone who assists the marketing manager in putting together campaigns for clients
e.g. What are the skills you need to become a marketing coordinator?
- **editorial assistant** (noun): someone who works in publishing, does secretarial work and gets to write, or edit
e.g. Proficiency with inPrint could be considered a hard skill for an editorial assistant.

Learning Points

Intonation of Finished and Unfinished Ideas

Intonation tells us a lot about how someone feels and whether they have completed their thoughts or not. It is important to listen carefully to the rise and fall of people's voices.

In English, there are **three** intonation patterns:

1. Falling
2. Rising
3. Partial Falling

You should use falling intonation at the end of a thought group or sentence to tell the listener that you are finished with that statement.

For example:

These skills are often called transferable skills because you can transfer them from one job to another.

Likewise, your pitch will only partially fall at the end of a thought group to:

- give the listener's brain time to "digest" the speech; and
- tell the listener that you are not finished speaking

For example:

I have another question to ask you but ...

Statement	Comment
<i>When I'm including skills on my master résumé ... how do I know if it's hard skill ... or a soft skill?</i>	At every ellipsis, the speaker's voice partially falls, signalling that there is more to come. Note that even though the idea is complete at the end, because it is a question, the voice does not fully fall.
<i>I always get them confused.</i>	At the end of the sentence, the voice fully falls, showing that the sentence is finished.

Learning Points

Talking about Jobs and Career Plans

A career plan is a structured process for analyzing your skills and interests, formulating long-term goals and coming up with strategies to achieve them. An important part of your career plan is deciding on the job you will have.

Jobs can be categorized in many different ways. Jobs with common characteristics are associated with certain sectors (a category, grouping, or division) of our economy. The different types of sectors are:

- Service
- Resource
- Business
- Health
- Education
- Art/Culture
